# **PROTECT® ARAMID ACCESSORIES**

# **Product Description**

Protect<sup>®</sup> aramid III-A is a registered brand of Technical Textiles<sup>®</sup>. Accessories made from Protect<sup>®</sup> aramid III-A yarn, provide inherently heat and flame resistance along with excellent durability and do not lose their properties during the life of the garment.

#### Features

- High protection from heat and flame.
- Permanent flame resistance.
- Self-extinguishing, does not melt or drip.
- Low heat conductivity.
- High tenacity, low weight.
- Low abrasion and high strength.
- Excellent chemical resistance.
- Anti-static.

#### Raw Material

Protect® aramid III-A yarn (93% Mete aramid, 5% Para aramid, 2% Anti-static fiber)

# Zipper Teeth Material

Golden Brass, Antic Brass

#### Zipper sizes

5#, 3#, 10#,

#### Color

Natural, Sage green, R.Blue, Navy blue, Yellow, Red, Orange, Black, D.Tan,

#### Applications

- Personal protective clothes.
- Oil/Gas work uniform.
- Racing wear.
- Firefighter suits.
- Tank suits.
- Flying suite.
- Lab Jackets.
- Electric Arc garments.

#### **Zipper Test**

- Zipper strength (Bottom stop holding strength)
- Zipper strength (Chain crosswise strength)
- Zipper strength (Separating unit, Crosswise)
- Zipper strength (Slider lock holding)
- Zipper strength (Slider pull, Pull off)
- Zipper strength (Top stop holding)

#### Yarn Test

- Count Test
- CV% of count
- Tensile strength Test
- Harness

#### Benefits

Protection against heat and flame, electric arc & static electricity.

# **Technical Textiles**

# **Raw Material**

Protect® aramid III-A thread (93% Mete aramid, 5% Para aramid, 2% Anti-static fiber)

# Spun yarn dyed

# **Thread Counts Range**

30/1, 30/2, 30/3, 30/4, 40/1, 40/2, 10/1, 20/1, 20/2

#### Color

Natural, Sage green, R.Blue, Navy blue, Yellow, Red, Orange, Black, D.Tan,

# Care

- Wash garments of Protect<sup>®</sup> III-A separately from other fabrics/garments.
- Machine wash. Hot water (60 C)
- Tumble dry low (160 F/71 C)
- Do not use chlorine beach nor detergents containing chlorine bleach.
- Press with an adapted low pressure, or for a short period of time dehydration.
- Use proper washing water which is free from dyes/iron/manganese.
- At the end of washing program, rinse out to achieve a pH-value of 5.5 to 6.
- When using commercial laundry aids, be sure to read and carefully follow the manufacturer's instructions.
- Do not line dry in sunlight.

#### Packing

Every con size will be 100gram to 200gram.
